**I MAKE THINGS HAPPEN SELFICA: SPIRITUAL TECHNOLOGY FOR THE THIRD MILLENNIUM**di *Gnomo Orzo (Rinaldo Accorti)*

Metal is made of time. Its encounter with light ignites the power of making things happen. The archeological findings and myths of our planet show that in the connection between human beings and metals a great power is concealed. It is the power of making things happen, and it has determined human events since the dawn of time. Today, on the threshold of the Third Millennium, after a long period of research, a technology arises that can once again bring us close to this extraordinary potential. This book is an impassioned tribute to this new chapter of history. It is also a testament to how that which is most complex is also extremely simple in its essence.

**Gnomo Orzo** (Rinaldo Accorti) has been living in Damanhur since 1988. He is a spiritual healer and an instructor in the Damanhurian School of Meditation and the School for Spiritual Healers. He worked for many years alongside Falco Tarassaco, founder of Damanhur and the new discipline of Spiritual Physics. Gnomo is now one of the most enthusiastic researchers in this field and, in order to develop his expertise, has traveled extensively around the world. During his journeys, he found inspiration to reinterpret the history and culture of ancient civilizations. In particular, he has focused on the myth of Atlantis and on peoples who disappeared into the Mediterranean sea. Gnomo feels particularly connected to the island of Santorini and its ancient civilization. In recent years he has been studying the ancient civilization of Rama in Val di Susa (Italy) and its encounter with the Egyptians. Gnomo is also the author of *How many holes does a ring have?* (Devodama Publishing).
