Damanhur is one of the most structured Communities in the world and its story contains so many initiatives and events that we should need a much bigger volume than this to tell them all. For that reason, in these pages we have condensed the following phases: the conception of the community project (1969 - 1979), its physical creation and subsequent consolidation (1980 - 1992), the period of rapid expansion (1993 - 2000), and the further growth that still continues, uninterrupted. Damanhur, with more than forty years of history and thousands of followers all over the world, is a social and spiritual experience that has a lot of stories to share with the reader. "Damanhur Con Te" represents a way to collect them and tell them so that you can take away with you a small piece of the wisdom - or the foolishness, it depends on how you look at it - that has led us in this adventure.
